404. As it just wouldn't work to have a walk around "costume class" like the other projects have, the swine members will have another aspect of fashion. Grab some washable felt pens and dress up your pigs up with your artwork!!! Pigs will be judged in their pen.

4-H RABBIT

The proper pen designed for a rabbit should be made of an inedible material such as metal and has a double wire partition. The double wire partition prevents the rabbits from biting and clawing one another, etc. For this reason, poultry cages should not be used to house the rabbits because they have a single wire partition, which offers little protection. There are three types of pens designed for different size animals according to weight. For animals that weigh a maximum of 2.72 kg. (6 lbs.) a small pen 38 cm x 41 cm x38 cm (15 in. x 16 in. x 15 in.) is used. For animals with a medium weight of between 2.72 kg. and 5.44 kg. (6lbs. - 12lbs.) a pen size of 53 cm x 58 cm (21 in. x 23 in.) is recommended. For larger animals weighing over 5.44 km. (12 lbs.) a pen of 76 cm x 69 cm (30 in. x 27 in.) is recommended.
